CROPS IN KENTUCKY.

Growth of all Vegetation Retarded by Cool Weather—Conditions Much Better Now.

Cool, cloudy weather during the first part of the week retarded the growth of vegetation. It was decidedly warmer the latter part, with abundant sunshine, and crops were much benefited generally, but the soil was too dry for the best results. Light showers occurred in most localities on the 17th and 18th, but they were insufficient. Conditions were quite favorable for farm work, except the transplanting of tobacco.

Corn made some progress, but backward—just backward. Corn made as much as could be expected under unfavorable conditions. It has been given cultivation. Cut-worms damaged corn considerably. Hay-fields are backward. They are not in very good condition. Rain is badly needed for crops.

Apple plants are generally small and, in some localities, scarce, but they are healthy and many of them are ready for transplanting. Some of them were set out during the week, but the ground was too dry and the work had to be discontinued.

There has been no important change in the condition of fruit; apples are reported to be dropping. Large crops of berries of all varieties are expected and the prospect for grapes is good.—Weekly Bulletin of Weather Bureau, May 24th.

Marconi's Daily Wireless Newspaper Getting Ready for Its Publication.

In order to continue his experiments and to perfect the arrangements for the publishing of a daily wireless newspaper on board the vessels of the Cunard Line, William Marconi sailed for Liverpool from New York May 21st, on the Campania. He will make one more trip, getting things ready for the publication of the paper.

The paper will be published on the next trip of the Campania, and this will be followed by the publication of a paper on the Lucania," said Mr. Marconi. "We will receive news from both sides of the Atlantic. When leaving or nearing the other side the news will be received from the station at Poldhu. As we get near this side the news will be received from the Cape Breton station. Of course, with our improved instruments, there will be a time when in mid-ocean that we will be able to receive news from both sides of the Atlantic."

OUR FARM SURPLUS

The Department of Agriculture has issued a Report on the Matter.

Value in 1903, \$4,500,000,000

The department of agriculture has issued a report on "The Nation's Farm Surplus," prepared by George K. Holmes, chief of the division of foreign markets. It gives \$4,500,000,000 as a conservative estimate of the value of the farm products of this country not fed to live stock in 1903, on the basis of the census valuation. The value of the exported farm products of this country in 1903 was \$878,479,451 and the highest value reached during the last 11 years was \$951,628,331 in 1901, due chiefly to cotton. The value of the exported farm products of this country is concentrated mostly in a few principal products. Of it in 1903 cotton constituted 36 per cent., grain and grain products 25 per cent., meat and meat products and live animals 24 per cent., these products equalling more than 85 per cent. of the exports of farm products last year. Adding tobacco, the exports of which were valued at more than \$35,000,000, oil cake meal \$19,839,279, fruits and nuts more than \$18,000,000, and vegetable oils more than \$16,000,000, gives a total of eight classes of products, each with an export value of more than \$10,000,000, that comprises almost 96 per cent. of the entire farm products of 1903.

With recent years, ending with 1903, the cotton exports have been between three and four billions of pounds and the exported fraction of the crop has between 63 and 71

per cent. for a long series of years. The fraction of the wheat crop exported in the last dozen years has been about 31 to 41 per cent. and the exported wheat and wheat flour have yearly averaged somewhat more than 200,000,000 bushels since 1897, before which period for many years the quantity was usually 50, 000,000 to 100,000,000 bushels less. Only a small portion of the corn or maize crop is exported as corn, the highest percentage, 11 per cent., being for 1898. Notwithstanding the small percentage, the exported bushels reach 100,000,000 to 200,000,000. The beef exports weighed 385,000,000 pounds, pork exports 551,000,000, lard exports 490,000,000, oleo oil exports 126,000,000 and tobacco 368,000,000 pounds. Butter and cheese exports have declined decidedly within two or three years. The report says that within a few years the results of an enormous extension of orchard planting will begin to appear and some of these results may be in a much increased fruit surplus for export. The exports of animal matter are losing ground relatively with a corresponding gain by vegetable matter. Taking up the destination of the surplus, the reports says the United Kingdom takes about one-sixth and France, the Netherlands, Belgium, Canada and Italy from 3 to 5 per cent. each. China in recent years takes a million dollars' worth annually.

MOB VIOLENCE.

Gov. Blanchard, of Louisiana, in Inaugural Address

Says Sheriffs Will be Held to the Strictest Accountability Possible.

At Baton Rouge, La., on May 16 in the presence of a multitude of Louisianians Newton C. Blanchard was inaugurated as Governor.

In his inaugural address Gov. Blanchard made a strong appeal for larger appropriations and progressive legislation promoting education. He proposed a million dollar bond issue to build school houses.

Larger appropriations for the Confederate veterans, the passage of laws suppressing gambling, the regulation of trusts, and laws in the interest of good roads. On the subject of law and order he says:

Mob law, in contravention and defiance of law, will not be tolerated. Lynchings will not be permitted under any circumstances, if it be possible for the military at the command of the Governor, to get there in time to prevent it, and if they occur before the intervention of the Executive can be made effective inquiry and investigation will be made and prosecutions instituted. Sheriffs will be held to the strictest accountability possible under the law for the safety from mob violence.

Was Wasting Away.

The following letter from Robt. R. Watts, of Salem, Mo., is instructive. "I have been troubled with kidney disease for the last five years. I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." For sale by W. S. Lloyd.

REMEDY SUGGESTED

By Senator Silberberg For Error in His Theater Law.

Senator Max Silberberg, author of the bill "to prevent loss of life in public halls and theaters," passed by the last Legislature, in which the substitution of a word in Section 4 threatens the very life of certain places of amusement, yesterday was of the opinion that the mistake could be rectified without much trouble.

He has a copy of the original bill, with all the changes made in it during its passage through the two Houses. It does not contain the word "or," which was evidently inserted by the engrossing clerk. Colonel Silberberg said that the proper thing to do now is for Governor Herrick, Attorney-General Ellis and the Secretary of State and the Auditor to hold a meeting and decide that the word is foreign to the law and strike it out. He claims that this has been done before. Meanwhile Silberberg is of the opinion that the Courts cannot construe the law to be illegal.—Cincinnati Enquirer.

Warning.

If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. For sale by W. S. Lloyd.

Heedless people bear needless pain.

The labor of love leads to love of labor.

Just the Vehicle

BEAN BROTHERS,
WINCHESTER, KY.

FROM CUBA

Every Dish Served at This Remarkable Banquet Was Brought.

One of the most remarkable dinners ever given in New York City was attended at the Waldorf-Astoria on the night of May 20 by a society of Cubans in commemoration of the second anniversary of Cuba's independence.

C. M. Ceballos, a banker, is the Secretary of the society that gave the dinner, and had charge of the elaborate preparations for the banquet.

The amazing feature of this feast was that every single dish put upon the tables was imported direct from Cuba. Fish, fruit, meat and coffee were brought there from Havana, and what is even more remarkable, the ices that were served as separate courses were taken there in the refrigerators of a steamship.

A direct cable was laid from the banquet room in the Waldorf-Astoria to President Palma's office in Havana, and throughout the evening messages were exchanged between the diners and officials of the Cuban republic.

Chronic bronchial troubles and summer coughs can be quickly relieved and cured by Foley's Honey and Tar. For sale by W. S. Lloyd.

Death Claims Clark's Last Surviving Pensioner of the Struggle of 1812.

Mrs. Nancy Baxter, the last surviving pensioner of the War of 1812 in Clark county, or perhaps in the State of Kentucky, died Tuesday, May 25, aged 91 years. Her husband, Dr. John Baxter, served through the war and was a member of Congress when the constitution of 1812 was framed.

Neuralgia Pains.

Are sometimes almost unbearable. Paracamp relieves Neuralgia and Headache instantly by opening the pores, stimulating the circulation and removing the congestion. A free application will convince you of its merits. So don't suffer but keep Paracamp in your home. You need it every day.

Awkward deeds are better than elcqueat dreams.

Some souls will sink because they are loaded with undigested sermons.

When the devil starts a discussion on the dishes, depend upon it, he intends to steal the dinner.

Commissioner's Sale.

BATH CIRCUIT COURT.
N. B. YOUNG, Plaintiff.
Versus
Notice of Sale.
J. A. YOUNG, Defendant.

By virtue of a judgment and order of sale rendered in the Bath Circuit Court, at the May term, 1904, in the above-styled case, the undersigned Master Commissioner will on

MONDAY, JUNE 20, 1904.

at about 1 o'clock p.m. proceed to offer for sale to the highest bidder at public auction at the court house door in Mt. Sterling, Ky., the following described property:
Thirty-five shares of the capital stock of the Eastern Kentucky Land Company belonging to J. T. Young.

Terms.—Sale will be made on a credit of six months, the purchaser will be required to execute sale bond with good security bearing six per cent. interest from date of sale, and payable to the Commissioner, the bond to have the force and effect of a replevin bond upon which execution may issue, if not paid at maturity.

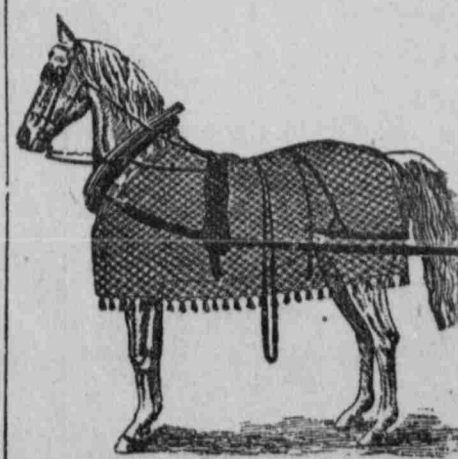

H. R. PREWITT, Attorney.
H. S. GOODPASTER, Master Comm. B. C. C.
